Backend: Basic Node.js, Express.js
Database: MongoDB
Styling: Responsive Design, Flexbox, CSS Grid, Bootstrap Components, Tailwind CSS
Tools: Git, GitHub, VS Code, npm, Chrome DevTools, Vercel, Netlify, Hostinger
Other: Firebase Authentication, API Integration, CRUD Operations Dedicated, Detail-
Soft Skills: Dedicated, Detail-Oriented, Quick Learner, Team Player

INTERNSHIP / EXPERIENCE

glamtap pvt ltd — Frontend Developer Intern

ReactJS | JavaScript | HTML5 | CSS3 | Tailwind CSS

- Worked primarily on the frontend development of glamtap.in, a salon service and booking web application.
- Developed responsive and user-friendly screens using ReactJS, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Built reusable React components and responsive layouts for salon services, categories, and booking-related screens.
- Integrated frontend screens with APIs and worked with existing backend functionality for data rendering.
- Used Git/GitHub, npm, VS Code, and Chrome DevTools for development, debugging, and project management.

PROJECTS

glamtap.in — Salon Booking & Management Web Application

ReactJS | JavaScript | HTML5 | CSS3 | Tailwind CSS | Node.js | Express.js | MongoDB

- Developed responsive frontend interfaces for a salon platform using ReactJS and reusable components.
- Created service/category sections and booking-related UI with responsive layouts for desktop and mobile screens.
- Integrated frontend with APIs for displaying and managing service-related data.
- Worked with basic Node.js, Express.js, and MongoDB concepts for frontend-backend integration.
- Implemented Firebase Authentication and supported login-related frontend flows.

Food Rack — Interactive Food Discovery App

ReactJS | JavaScript | CSS | Component Architecture

- Developed a dynamic food browsing application using ReactJS with reusable component architecture and category-based filtering across 30+ food items.

Todo List , CRUD Operations

- Implemented dynamic rendering and conditional UI states for loading, empty, and result views.
ReactJS | JavaScript | CSS | React Hooks
- Built a task management app with Create, Read, Update, and Delete functionality supporting 50+ task entries.
- Added image upload and preview per task, responsive mobile-first UI, and real-time updates without page reloads.

EDUCATION

Bachelor of Computer Applications (BCA) — 2025
