PROFESSIONAL SUMMARY

Frontend Developer and BCA final-year student with hands-on project experience building responsive web applications using ReactJS, JavaScript, HTML5, CSS3, and Bootstrap. Delivered 3+ full-stack projects including a CRUD-based task manager with image upload and a dynamic food discovery app with component-based architecture. Seeking a Frontend Developer role to build performant, user-centric web interfaces.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Bootstrap, JavaScript (ES6+), ReactJS

State Mgmt: React Hooks (useState, useEffect, useContext)

Styling: Responsive Design, Flexbox, CSS Grid, Bootstrap Components

Tools: Git, GitHub, VS Code, npm, Chrome DevTools

Soft Skills: Dedicated, Detail-Oriented, Quick Learner, Team Player

PROJECTS

Todo List with CRUD Operations

ReactJS | JavaScript | CSS | ReactHooks |

- Built a full-featured task management app with Create, Read, Update, and Delete functionality supporting 50+ task entries with persistent state management via React hooks.
- Integrated image upload feature allowing users to attach and preview images per task, improving task context and usability.
- Designed a responsive, mobile-first UI with real-time updates – eliminating page reloads and delivering a seamless single-page experience.

Food Rack – Interactive Food Discovery App

ReactJS | JavaScript | CSS | ComponentArchitecture |

- Developed a dynamic food browsing application using ReactJS with reusable component architecture, enabling category-based filtering across 30+ food items.
- Implemented dynamic data rendering and conditional UI states (loading, empty, results) for a polished end-user experience.
- Structured project with modular components and props-driven design, reducing code duplication by ~40% compared to a

Make Bee Trip – Travel Booking Website

HTML5 | CSS3 | JavaScript | REACT JS | DOMManipulation

- Developed a responsive travel booking website using HTML, CSS, JavaScript, and ReactJS. Created sections for Flights, Bus, Train, and Hotels booking.
- Designed an intuitive responsive layout using CSS Flexbox ensuring consistent rendering across desktop and mobile viewports.
